

CETCO Signs Deal with Libyan Services Company.

Date: 2009-01-17

CETCO Oilfield Services has announced it has signed a deal with the Libyan services agent company, APSCOP, Althuraya Petroleum Services and Supplies to provide water treatment services to the Libyan oil and gas industry. Global leaders in the provision of cost effective, technologically advanced environmental systems designed to treat a variety of oilfield waste streams for the oil and gas industry, CETCO Oilfield Services decided the move following a fact finding mission at the end of 2008. The deal will see the companies work together to pursue opportunities in the buoyant Libyan market with a keen focus on new business prospects across exploration, upstream, middle stream and downstream operations. APSCOP has offices in Tripoli and the city of Benghazi. APSCOP will provide CETCO with access to unrivalled specialist knowledge of the needs of local operators and the challenges faced by European companies in the emerging Libyan oil and gas market place.
